Fix a Bug when saving a Monthly Job (3.20.10.2)	8
Changed the FTP File Name to use the Output File Name by Default (3.20.11.1)	8
Fixed a bug in the Alerts (3.20.11.1)	9
Scheduled Group	9
Added the Next Run Date field to the List of Scheduled Groups (3.20.11.1)	9
Roles	9
Removing Folders From A Role (3.20.1.1)	9
Trusted System	10
Updated the Page To use inline Editing (3.20.5.1)	10

UPDATED SCHEDULED JOBS GRID (3.20.2.2)

Updated the Scheduled Jobs grid to display the Scheduled Start Time and the Actual Start Time. These two times will not always be the same; if the scheduler is busy it will queue the job and start it after other jobs have finished.

Also added a Page Size to the grid

UPDATED CODE WHEN SAVING A NEW REPORT (3.20.1.1)

When a new report is being added to the system, the code has been updated to handle errors in a more consistent way.

ADDED MORE WEB VIEWER OPTIONS (3.20.2.1)

The Web Viewer tab has been updated with 3 new options. The first two override the Refresh and Search button toolbar global options. This allows the administrator to either enable or disable the Refresh and Search toolbar buttons.

The third option can turn off the option that allows users to select a different viewer for the report. Setting the option to Disable Viewers will turn off the dropdown box of additional viewer and force the user to use the Web Viewer.

Document Name: Sales by Employee

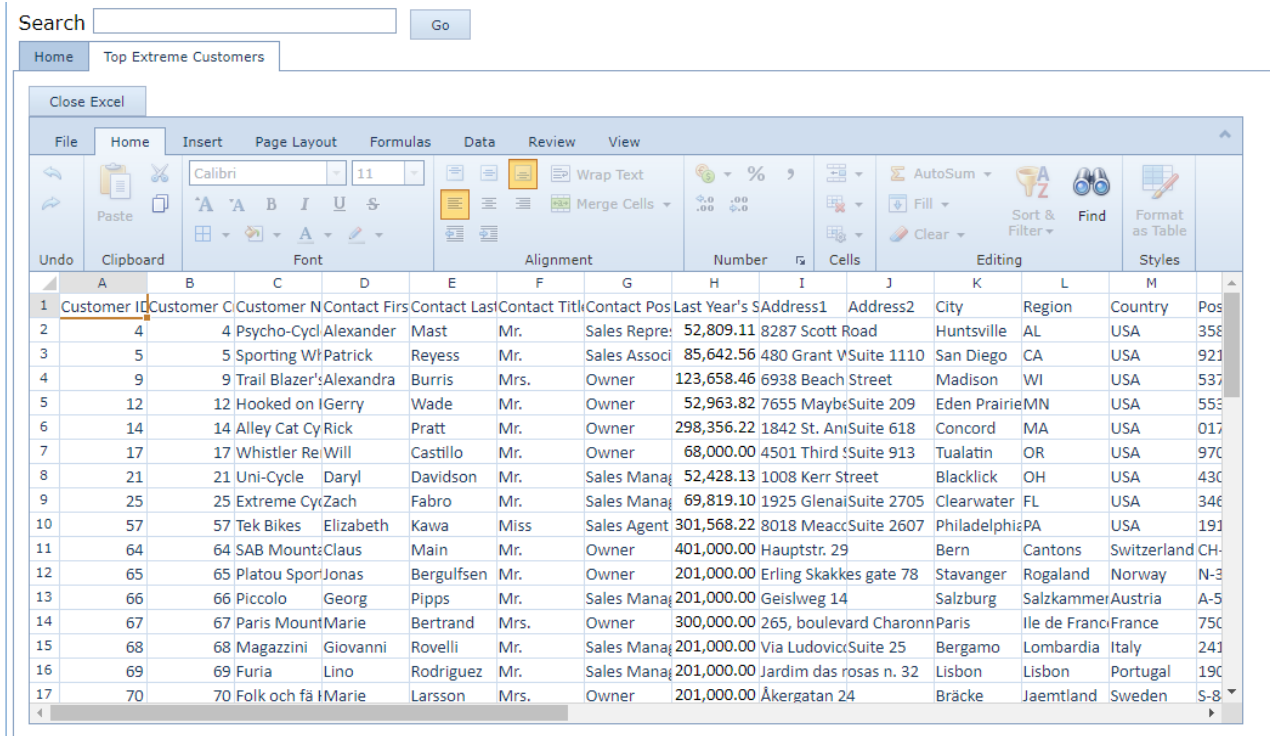

Descriptions	Published Folder	Send To	Web Viewer Options	Dynamic Pick Lists
 This tab is used to control the toolbar button in the Crystal Report viewer. This will override the system settings.				
Allow Export:	<input type="text" value="Use Global Setting"/>			
Allow Print:	<input type="text" value="Use Global Setting"/>			
Allow Refresh:	<input type="text" value="Disable Refresh"/>			
Allow Search:	<input type="text" value="Enable Searching"/>			
Allow Other Viewers on Home Page:	<input type="text" value="Disable Viewers"/>			
<input type="button" value="Save"/> <input type="button" value="Cancel"/>				

Document Actions	
 Run Report	 Select Output <input type="text" value="Web Viewer"/>

Document Schedules
There are no scheduled jobs for this report
 Schedule New Document

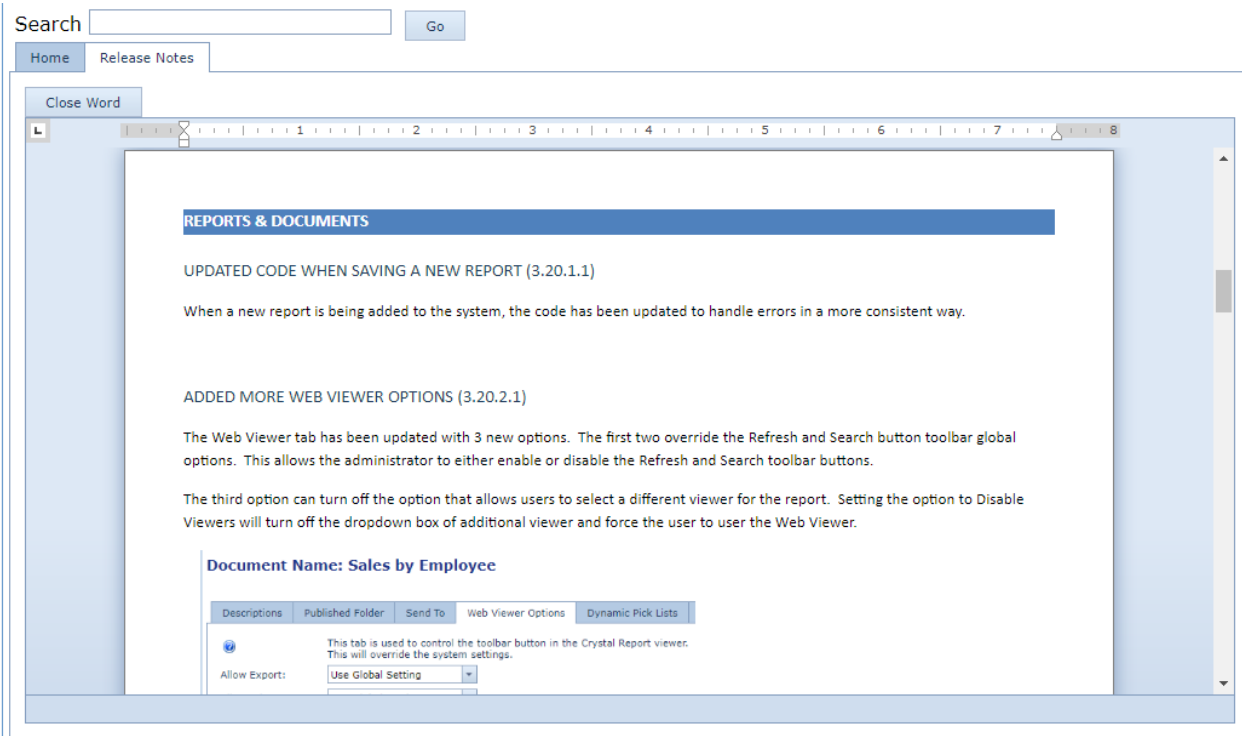

ADDED NEW EXCEL VIEWER (3.20.7.1)

Added a new inline Excel viewer. You can now view the Excel file directly within Ripplestone.

ADDED NEW WORD VIEWER (3.20.7.1)

Added a new inline Word viewer. You can now view the Word file directly within Ripplestone.

ADDED PDF EXPORT OPTIONS (3.20.7.1)

Using the Custom Export Options, the user now has options for PDF files.

Custom Export Options

Use the options below to customize the export file

File Type:

PDF  ▼

PDF Export Options

Page range

☒ All

☐ Page range

From: To:

☐ Create bookmarks from group tree

File Name:

Export

Close

ADDED FILE NAME TEXT BOX TO THE CUSTOM EXPORT OPTIONS FORM (3.20.7.1)

The Export Options page now has a place to name the export file. Before you got a generic name that was saved to the Downloads folder. See screen shot above to view the File Name textbox.

DYNAMIC PARAMETERS

CHANGED THE TEST DYNAMIC PARAMETER BUTTON (3.20.6.1)

Changed the code when testing a Dynamic Parameter to allow the database code to work with SQL Server with TLS 1.2 turned on.

CHANGED THE LIST OF SCHEDULED JOBS TO NOT DISPLAY DUPLICATES (3.20.1.1)

When a user belonged to many scheduling roles, they would see duplicates in the list of scheduled jobs if more than 1 roles had the same scheduled job assigned. The new code will only display scheduled jobs once in the list.

UPDATED THE CONTROLS FOR THE SCHEDULED INTERVAL (3.20.7.1)

Updated the formatting with new controls for the Schedule Interval

Document	Folder & Parameters	Output File Name	External Parameters	Schedule	Email	Alert Report	Unmanaged Output
<p> <input checked="" type="radio"/> Schedule Interval Hourly Select the Hourly Interval Each hour </p> <p> <input checked="" type="checkbox"/> Select the hours to run (optional) </p> <p> Start Time: 7 AM End Time: 6 PM </p> <p> <input checked="" type="radio"/> Begin on Date 2/10/2012 </p> <p> <input checked="" type="radio"/> Start Time 5 00 PM </p> <p> <input checked="" type="radio"/> End on Date </p>							
<p> <input checked="" type="radio"/> Schedule Interval Monthly <input type="radio"/> Day </p> <p> <input checked="" type="radio"/> The First Day </p> <p> <input checked="" type="radio"/> Begin on Date 2/10/2012 </p> <p> <input checked="" type="radio"/> Start Time 5 00 PM </p> <p> <input checked="" type="radio"/> End on Date </p>							

FIXED BUG WHEN SAVING A MONTHLY SCHEDULED GROUP (3.20.7.1)

When saving a Scheduled Group that was to run monthly, you had to select all the options, or you would get an error. The code has been changed to only require the minimum options to make the group work.

ADDED THE OPTION TO RUN A SCHEDULED JOB BY MINUTES (3.20.10.1)

Added a Schedule Interval of minutes. The user can select a report to run by 5-minute intervals

Document	Folder & Parameters	Output File Name	External Parameters	Schedule	Email	Alert Report	Unmanaged Output
<div><div><div><div><div></div><div>Schedule Interval</div></div><div>Minute</div><div>▼</div></div><div>Select the Minute Interval</div><div><div>10 Minutes</div><div>▼</div><div>5 Minutes</div><div>10 Minutes</div><div>15 Minutes</div><div>20 Minutes</div><div>25 Minutes</div><div>30 Minutes</div><div>35 Minutes</div></div></div><div><div><div></div><div>Begin on Date</div></div><div>10/6/2020</div><div>▼</div></div><div><div><div></div><div>Start Time</div></div><div>1</div><div>▼</div><div>00</div><div>▼</div><div>PM</div><div>▼</div></div><div><div><div></div><div>End on Date</div></div><div></div><div>▼</div></div></div>							

ADDED THE PDF EXPORT OPTIONS TO THE SCHEDULER (3.20.10.2)

When scheduling a report and exporting to a PDF, the user can add export options to the pdf file.

Document	Folder & Parameters	Output File Name	External Parameters	Schedule	Email	Alert Report	Unmanaged Output
<div><div><div><div><div></div><div>Job ID</div></div><div>15</div></div><div><div><div></div><div>Job Description</div></div><div>BBD Todays Sales</div></div><div><div><div></div><div>Output Format</div></div><div>PDF</div><div>▼</div></div><div><div><div></div><div>Disable Live Data</div></div><div><div>Yes</div><div>No</div></div></div><div><div><div></div><div>Save and Send Output</div></div><div><div><div>Save and send output only when the following is true</div><div><div>Report is empty</div><div>Report has data</div></div></div></div></div><div><div><div></div><div>Active</div></div><div><input checked="" type="checkbox"/></div></div></div></div> <div><div><div><div><div>PDF Export Options</div><div><input type="checkbox"/> Use Custom Export Options?</div><div><div>Page range</div><div><div>All</div><div>Page range</div><div>From: 1 To: 1</div></div></div><div><input type="checkbox"/> Create bookmarks from group tree</div></div></div></div></div>							

FIX A BUG WHEN SAVING A MONTHLY JOB (3.20.10.2)

When scheduling a report to run monthly and selecting a specific day to run, the day was not getting save correctly. This has been fixed and is saved and displayed correctly in the dropdown box

Document Folder & Parameters Output File Name External Parameters **Schedule** Email Alert Report Unmanaged Output

☒ Schedule Interval Monthly ☒ Day 6 ☐ The

☒ Begin on Date 8/6/2019

CHANGED THE FTP FILE NAME TO USE THE OUTPUT FILE NAME BY DEFAULT (3.20.11.1)

The name of the FTP file that is sent to the FTP folder will use the Output File Name by default. This allows the user to use Tokens to dynamically create a file name. You still have the option to bypass this name and create a different file name.

FTP

Send the output to a FTP Server

☒ Standard ☐ SFTP

FTP Hostname 208.147.122.111

FIXED A BUG IN THE ALERTS (3.20.11.1)

There was a big when using the Alerts feature where the data cache was not getting cleared when updating Alerts. If you saved a report that had Alerts and then opened another job that had alerts, the previous alerts would be displayed until the cache expired or was cleared.

SCHEDULED GROUP

ADDED THE NEXT RUN DATE FIELD TO THE LIST OF SCHEDULED GROUPS (3.20.11.1)

Added the NextRunDate field to the ScheduledGroups table. This makes it easier to view when the groups will run.

Scheduled Reports

ROLES

REMOVING FOLDERS FROM A ROLE (3.20.1.1)

Fixed a bug when removing a folder from a role. When the folder was removed from the role, the data cache was not getting cleared so the folder would look like it was not removed. This would appear this way until the cache was cleared or it expired. The updated code clears the cache when a folder is removed from a role.

UPDATED THE PAGE TO USE INLINE EDITING (3.20.5.1)

Updated the page to use more updated grids and allow the editing to be completed directly on the grid. This includes adding the Trusted Systems and the users.
